

Short speech on Independence Day for students

Good morning everyone

Every year on August 15, Independence Day is celebrated as a national holiday in India as people remember the long period of independence of our nation from the British Raj.

On August 15, 1947, India gained independence after several movements in which many freedom fighters sacrificed their lives. After independence, on August 15, 1947, Jawaharlal Nehru became the first Indian Prime Minister to hoist the national flag at the Red Fort near the Lahore Gate in Delhi.

Students, teachers, parents, and others celebrate Independence Day together by waving the national flag and singing the national anthem.

The Prime Minister of India in the national capital, New Delhi, also hosts our national flag at the Red Fort. The salute is then given with 21 cannons and a helicopter showers tricolor flowers on the flag. The colors of our flags represent different things.

Saffron is a symbol of courage and sacrifice, white is a symbol of peace and truth, green is a symbol of faith and nobility. In the middle of our flag is an Ashoka cycle with evenly distributed spikes.

On this special day, we remember the great sacrifices of Bhagat Singh, Sikh Dev, Raj Guru, Gandhiji, and other brave freedom fighters who have made an unforgettable contribution to India's independence.

Long live India!
